

Field Trips, Travel, & Professional Gatherings

- At the current time **all** field trips are on hold.
- At this time we are also recommending that Professional Learning Opportunities remain socially distanced and through zoom if possible. This also means that travel for the purposes of professional learning is not recommended.
 - We encourage you to continue planning innovative performances using your school campus in creative ways. Performances have been approved in HCS gyms, school entryways/front "porches," and to be filmed on campus and shared virtually with a remote audience. Off campus performances will **not** be approved.
 - Athletic travel and band performances related to athletics are still under the guidance given previously by the district, TSSAA, and our Campus Athletic Director, Brad Jackson.
